SHIPPING SEASON

OUR shipping season opens in the spring, about the 15th of April, closing in early June according to the season. In the fall it extends from the end of August to the beginning of December.

FALL PLANTING

With a few exceptions, fall planting of the herbaceous plants is as successful as spring, and many of the early-flowering plants, storing their food over winter, should be planted in the fall, when possible, in preference to the spring.

Woody plants need greater care in fall than spring transplanting, but may be moved successfully.

SELECTED STOCK

Stock selected by customers at the Nurseries, or specially selected stock ordered by mail or otherwise, will be charged at advanced rates according to the value of the stock selected.
